COMMANDANT'S COMMENTS

John Dilday

The final quarter of the year is upon us and a lot of annual events are happening this time of the year, beginning with our fall social event for Detachment members and family on October 9th, beginning at 1600, 812 White Meadows Dr. Fuquay-Varina 27526. Good food and good fellowship for all. Pound 210 will have a Devil Dog Growl on October 15th beginning at 1100, location is 11870 Lodge Rd., Middlesex, NC 27577. Lunch will be catered by Doug Sauls Bar-B-Que at \$6.00 per person. All Devil Dogs are invited. Also, if you have completed one full year in the Tar Heel Detachment and would like to become a member let me know.

A big fundraiser event will be on Saturday, October 22nd from 0800 to 1030 with breakfast at the Golden Corral in Fuquay (corner of Sunset Lake and Broad St.). Tickets are \$10.00 per person for a full buffet meal that normally costs \$12.95 plus tax. Your Detachment will get \$5.00 from each ticket. Please join us and let's make this event a huge success so we will have the funds to support the programs sponsored by your Detachment. We understand that many of you cannot be in attendance to each of our meetings and other events but your participation in the fundraisers can be a vital part of our goals of Marines Helping Marines and other programs we support. If you have the chance you can check out many of these programs and see what great things are being accomplished. You would be very proud.

October kicks off the Toys For Tots Drive and thanks to new member Bryan Duran for stepping up to coordinate this event. This has been a super successful event for those kids that have limited access to a good Christmas. Whatever you can do to put a smile on the face of a child will be greatly appreciated.

Looking into the future a bit we have many events in November that you should include on your calendar. November 5th will be the Veterans Day Parade sponsored by the Wake County Veterans Association and your Detachment will be a part along with the Capitol City Young Marines.

Our 241st Marine Corps Birthday Ball will be held on November 12th beginning at 1700 hrs at Devils Ridge Golf Club. (See email announcement) Our Guest Speaker this year will be MajGen Arnold Fields USMC (retired) who now heads up the Vietnam War Veterans Commemoration. At our Ball this year we will have a special recognition of our Detachment Vietnam Veterans. We will be limited to ninety tickets at \$50.00 each. Please contact James Cox (919-604-7363) who is chairing this year's Ball for reserving your tickets.

You will note a flyer included within our Scuttlebutt (last page) noting a fundraiser sponsored by City Bar-B-Que on Kildaire Farm Rd., Cary. With a coupon (costing nothing) City Bar-B-Que will donate 25% of all sales to the Tar Heel Detachment on that day, November 15th. Grab a bunch of coupons and just pass them out. A big Thank You to James White for setting this up.

Also, a big shout out to Jean Roberts, wife of Marine Toby, for sewing and presenting new covers for our American and Marine Flags. They are red and reinforced to protect our flags (see picture included in Scuttlebutt, page 4). We are very grateful for your contribution.

It is amazing what can be accomplished by many coming together to furnish just a small amount of time and effort in serving your community. Ask yourself, am I contributing and if not then what can I do to make things even that much better.

In December we will have a special presentation by one of our own. Brigadier General George Walls will speak and have a presentation of his recent visit to Vietnam. All are invited including family members for this event. It will be held at Christ The King Lutheran Church on Wednesday, December 7th, our regular meeting night. Remember to keep those of our Marine Family who are suffering from sickness and distress in your thoughts and prayers. Semper Fi

Marine Frank Mansfield celebrates 95th Birthday

Frank Mansfield celebrated his 95th birthday on September 18th at the Presbyterian Church, Horne St. in Raleigh. Joining Frank were his family, friends, Church community, the Boy Scout community and his Marine buddies. Frank has been most active in his church, with the Boy Scouts and with the Marine Corps League. As you can see above, Frank had many well wisher present. There was a display of Frank's many awards and skills of his woodworking expertise.

It is nearly impossible to see the news today without being bombarded with the sights and sounds of horrific events. Hate and evil seem to have become common place in our world. Hearts have turned to stone and people seem to have lost the ability to listen to reason. There are many ideas on how to combat this evil in the world. Lately I have seen some pretty extreme solutions being proposed to restore clam to the world. Unfortunately, most of these solutions are evil by their own nature or will do nothing more than strengthen the hatred that exists. We do have an amazing weapon at our disposal however, most people seem to have either forgotten this tool or would rather ignore it altogether.

The world has been changed for the better in the most dramatic ways by people using the same arsenal to combat the very same evil we face today. This weapon cannot be destroyed, stolen, or depleted. I am of course referring to love. The King James Bible mentions love 310 times between the New and Old Testament. The Qur'an mentions love approximately 70 times. Love is a cornerstone of Judaism.

In a secular sense, love is more commonly the theme of songs, art, literary works, and popular culture than any other subject. More people have done crazy things in the name of love than for any other reason. Fathers have been driven to their knees by the power of love the first time they see their children. Mothers have had superhuman abilities and strengths when protecting their children because of the power of a mother's love. Men have perished on the battlefields since the early beginnings in human history for love of their country and families.

With all of the hatred and evil in this world today, we can combat this without bloodshed or violence. Spread God's love throughout the world. Love your neighbor as you love yourself. Not everyone will return your love; some will even take it as a weakness. Know that your creator will see the love you show and your rewards, in time, will be worth all that you endure. Do not let your heart be hardened or troubled by those who do not see or feel love. With persistence, water can move a mountain and love can conquer all.

Let us pray:

"Supreme Commandant, whose love gives us life, comfort, and sustenance, we give thanks to you for your undying and unconditional love. We ask that you reach into the hearts of those who have turned away from love and wish to do harm to others. Let them feel loved and in turn show love. We ask that you help us heal the world with your love. To help all of mankind find peace, understanding, and love. We ask that you limit the shedding of blood and loss of life through the power of your love. We ask these things in your Holy name. Amen."

Marines are delivering relief supplies in Haiti in the wake of Hurricane Matthew

By: [Jeff Schogol](#), October 7, 2016 (Photo Credit: Sgt. Adwin Esters/Marine Corps)

Marines are expected to begin delivering relief supplies in areas of Haiti destroyed by Hurricane Matthew, Col. Thomas Prentice, head of the Marine Corps' Central America task force, said on Friday.

"The scope of the devastation is tragic," Prentice told Marine Corps Times. "Flying over the affected areas, there are tens of thousands of families that have been affected. It's truly a tragic situation."

Prentice is commander of the Special Purpose Marine Air-Ground Task Force – Southern Command, which began arriving in Haiti from Honduras on Wednesday. About 200 of the task force's roughly 300 Marines and sailors are expected to arrive in Haiti over the next three days, he said.

"The special purpose MAGTF was specifically manned, trained and equipped to be able to respond and provide humanitarian assistance and disaster relief to situations just like we're seeing right now in Haiti," Prentice said.

Working with the Office of U.S. Foreign Disaster Assistance, the Marines expect to begin delivering plastic sheeting, food, hygiene kits, blankets and generators to Haitians on Friday, he said.

"Our ability is to respond rapidly, and that's exactly what we did in this case," Prentice said.

"Our goal is to get in there and focus on our integration with OFDA and the embassy staff and simply provide as much help as we can."

By the end of the day, the task force in Haiti is expected to have about 150 service members on the ground and a total of nine helicopters: Marine Corps CH-53E Super Stallions along with Army CH-47 Chinooks and HH-60 Pave Hawks from 1st Battalion,

Sr. Vice Commandant's Message Bruce Goeden

My fellow Marines, Corpsman and Naval friends: I am sorry I could not be with you at our monthly meeting on October the 5th as I had to work at my 2nd job at the PNC arena. I look forward to seeing you all next month.

Next month we will celebrate another Marine Corps Birthday on November 10th and then we will all gather together for the celebration at Devils Ridge for the Marine Corps Ball on Saturday November 12th. With each passing day I look back at my past and that of our Beloved Marine Corps. I have been looking at and thinking about things I went through and what happened around the US and the World while I was on Active Duty. We as Marines have a strong Tradition that the world will always remember. Not so much of what we did, but, how we did it. Most of our stories are of meeting our enemy with a few of us and defeating their many. Marines do not back down! The famous saying. "***Retreat Hell We Just Got Here***" comes to mind.

The best solution to the Worlds Problems is to Let Loose those, MRE fueled, Beer cooled, Green amphibious animals that thrive on war with no restrictions on them.

They are called, **United States Marines!**

I have been seeing and hearing things that bothers me. I found our troops in harms way overseas are issued special orders so that they are not counted as being in country where the fighting is going on. They are there but not counted. I learned this from an officer in good military standing.

I have also noticed how the News Media reports on the fighting overseas. They seem to glorify any of the unrest going on in the World or around the US. The Good things being done are not spoken about and if so very seldom.

What they do say does not help our country but seems to be to strengthen our enemies. They always talk and point out the negative stuff done by our Military and Law Enforcement personnel. I feel the News Media is working hard to convince our young men and women to stay away from Military Service or Law Enforcement! After speaking with some of our local Recruiters and friends of mine in Law Enforcement It looks like at this time it is backfiring as the quality people they are recruiting are forward thinking and most of all self motivated.

History is repeating itself again. They are eliminating the most experienced and well trained staff from all Branches of service. Decommissioning ships of the fleet and reducing their numbers to a dangerous low same as was done before Korea!

I ask all of you to be prepared for what may come! I am not worried about me, but, my friends and families. Semper Fi

Hurricane Matthew reportedly dumped up to 25 inches of rain in Haiti, increasing the risk that polluted drinking water could cause a cholera outbreak. Prentice said the task force has a surgeon, corpsmen and preventive medical technicians to advise Marines what not to eat and drink.

"We are completely self-supportive," Prentice said. "We flew in a week's worth of water and week's work of food. We're also bringing in our lightweight water purification systems on the first of our fixed-wing waves of aircraft, which are arriving this afternoon."

Port-au-Prince's airport only has one runway, which initially hampered relief efforts after Haiti's 2010 earthquake. But the task force has not had any problems so far flying in personnel and supplies, Prentice said.

The task force also also working with Haitian law enforcement and U.S. officials to make sure security at the airport and distribution sites is seamless, he said.

Prentice could not say how long the relief mission would last. The Marines and sailors in the task force will keep distributing badly needed supplies as long as they are needed, he said.

"Their thoughts and their prayers are with the families here in Haiti that have experienced such tragic loss," Prentice said. "The compassion that our Marines and sailors have is, quite frankly, phenomenal. In the back of their minds, I know that our people are all thinking about how the storm is affecting home."

Capital City Young Marines

Wake tech student veterans and the Tar Heel Detachment, co-sponsored the young marines visit to the public safety campus to meet with law enforcement representatives from campus police, and James Lewis. They covered a wide range of topics. They ask some very interesting questions and they received some very good answers. They were very impressed by our group how well behave they were and how intelligent they are. They have already extended an invitation for them to return.
